GEN. SHERIDAN'S ILLNESS.

RELIABLE SOURCES SAY IT WAS WORSE THAN REPORTED.

It is Claimed He Had Apoplexy—The Critical Point Passed—The Irrigation of Public Lands—The Tariff Bill—Leland Stanford to Go Abroad—Other Notes.

New York, May 25.—The Herald has the following from its Washington correspondent: From thoroughly reliable sources it is learned that the story of Lieut. Gen. Sheridan's illness was only half told. He has

been very ill, indeed, dangerously so. For twenty-four hours from Monday dinner hour his condition was such as to cause his family and physicians to fear his demise at any moment.

That he escaped death and is now on the road to recovery is as remarkable to those acquainted with his condition as it is gratifying to his family and friends. He had a stroke of apoplexy. Being the second stroke he has had, the alarm of the family and physicians can well be understood. On account of the efforts of members of the household and other intimate friends to conceal the true facts of the general's illness it is difficult to learn just when the first symptoms appeared, but from the same reliable source above referred to it was known that no less than five physicians were in consultation on Monday night and Tuesday morning, and that three surgeons, O'Reilly and Harvey, of the army, and Dr. Yarrow were in attendance all night on Monday.

It is also positively asserted that a priest was seen to hurriedly enter the house simultaneously with the doctors at a time when all was excitement in the general's chamber above. This priest remained in the house all night, showing that the family was prepared for the worst. Wednesday a skilled nurse from New York was telegraphed for and, it is understood, arrived Wednesday night. All Monday night the general was in a semi-conscious state. He experienced great difficulty in breathing, and on that account the physicians would not allow him to lie down. He was kept in a sitting position in a large chair. Even in this position it was with the greatest difficulty that he could be aroused from the stupor he was in and his breathing made easier.

It was not until noon Wednesday that he showed marked signs of improvement. He was able to sleep naturally in the chair. He has continued to improve, and is now believed to be past the critical stage.

Irrigating Public Lands.
WASHINGTON, May 25.—Maj. Powell, director of the geological survey, was before the house committee on agriculture in support of the bill for the development and utilization of the water resources of the arid region for the purpose of irrigation. The bill provides for an appropriation of \$500,000 to be expended in making hydrographic surveys of the states and territories in the arid regions and to ascertain and locate sites for reservoirs or, rather, receptacles for water, where practical for the storage of water for the irrigation of public lands and the advancement of agriculture.

Mr. Symes, of Colorado, also spoke in favor of the bill and claimed that by its passage a large amount of land could be reclaimed.

The Mills Tariff Bill.
WASHINGTON, May 25.—The Democratic committee on ways and means are as busy as bees on the various amendments which have been submitted to the Mills tariff bill, and which they desire to dispose of by the last of this week, so as to renew work on the bill in the house early next week. The Republican leaders are confident that they will be able to agree upon a substitute for the Mills bill, but it is their purpose to allow consideration of the pending measure for some days under the five minute rule so as to fully disclose in debate the sentiments of Republicans.

Dr. Leonard Accepts.
WASHINGTON, May 25.—Rev. Dr. Leonard, of St. John's church, Wednesday evening announced to the committee appointed to notify him of his election by the convention of the Southern diocese of Ohio as assistant bishop, that he would accept the position if certain conditions were complied with. The question of Dr. Jagger's position, who is at present nominally holding the bishopric, will have to be settled by the Episcopal house of bishops. This body will be specially called for this purpose in the near future.

Liberty's Light.
WASHINGTON, May 25.—The light house board has sent to the house an estimate of \$50,000, for completing the approaches to, and pedestal of the Statue of Liberty. A letter was sent to the house with the estimate, from the American board, in charge of the statue, in which it is stated that all of the appropriation made for this purpose has been exhausted, and that unless an appropriation of \$50,000 is now made the board will release its charge next November.

Columbus Exposition Gets a Backset.
WASHINGTON, May 25.—The house committee on appropriations has concurred in the senate amendment to the pension appropriation bill, dating back to the death of the husband pensions granted to widows. The committee acted adversely on Mr. Outwater's joint resolution, making the appropriation of \$118,000 to enable the govern-

ment to make an exhibit at the exposition at Columbus, O.

The Pan Oche Grande Claim.
WASHINGTON, May 25.—The senate committee on mines and mining have agreed to submit a favorable report on the bill allowing William McGarrahae to go before the court of claims with his famous Pan Oche Grande claim.

Conference of Lawyers.
WASHINGTON, May 25.—Wednesday was the second day of the conference of lawyers bent upon forming a National bar association. There were thirty new attendants among them Representative Adams, of Illinois. A constitution and by-laws were adopted, and Cleveland, O., was selected as the place for holding the first annual meeting, August 8, next, was chosen as the date. Col. James O. Broadhead, of St. Louis, was elected president, and Mr. A. S. Worthington, of the District of Columbia, and Judge John H. Doyle, of Ohio, were elected vice presidents. The convention then adjourned.

Senator Stanford to Go Abroad.
WASHINGTON, May 25.—Senator and Mrs. Stanford expect to sail for Europe on Saturday next. The senator leaves his official duties in the senate with great reluctance, but is forced to do so on account of his wife's health.

The Postoffice Appropriation Bill Passed.
WASHINGTON, May 25.—The house has passed the postoffice appropriation bill.

A DOUBLE WRECK.

A Bridge Gives Way Beneath a Train.

Seven Lives Reported to be Lost.

KANSAS CITY, May 25.—A double wreck of freight trains occurred Wednesday morning near Randolph, five miles east of here, on the Rock Island road, which resulted in the death of E. G. Armstrong, brakeman, of Belleville, O.; T. Royston, brakeman, of Edgerton junction, Kan.; James Taylor and Emil Stroehm, tramps, and an unknown tramp. Benjamin Norris, a Rock Island engineer, of Chillicothe, Mo.; Ben McClellan, of Kansas City, a Wabash engineer; C. J. Snyder, a Rock Island fireman, of Trenton, Mo., and a colored man, were seriously hurt.

The first train, which was of the Rock Island, went through a bridge over a deep ravine, through which quite a large stream of water runs. The engine and five cars were wrecked. The engineer and fireman escaped, but brakeman Royston was killed. Brakeman Armstrong, who had safely escaped injury, was sent back to flag a freight train of the Hannibal & St. Joseph, which uses the Rock Island track at this point. The Wabash Western train pumiled with the Rock Island here and within a few feet of it. The Wabash bridge over the ravine where the accident occurred is within two feet of the Rock Island bridge, the two being braced together.

About ten minutes after the first wreck, a Wabash freight came thundering along and struck Brakeman Armstrong, who for some unknown reason, was on the Wabash track, mangled him horribly. The engineer of the Wabash train did not notice the Rock Island wreck until too late. Engineer McClellan and Fireman Snyder jumped and escaped, with serious but not fatal injuries, while Brakeman Royston and the three tramps were killed. A colored man from Chillicothe, who was stealing a ride, was also hurt. The Wabash train consisted of sixteen cars. Traffic on the Wabash and Hannibal roads is wholly suspended, but it is expected, will be resumed within thirty-six hours. The total damage is estimated at \$30,000.

LATER—It now appears that seven lives were lost in the wreck. Ben. Norris, the man who was fatally injured, says that an old man and his son were in the box car with him and they have not yet been accounted for. There is also said to be another tramp buried in the ruins. One hundred men are at work for the Rock Island clearing away the debris, and sixty-five are engaged in the same work for the Wabash.

Attempts to Burn an Orphan Asylum.
SAN FRANCISCO, May 25.—Attempts that were made last Saturday night to burn St. Vincent's orphan asylum at San Rafael, this state, were renewed Tuesday night and Wednesday morning. The asylum has within its walls about six hundred orphans. It seems positive that the fire in each case was started by one or more of the children in the building. One boy has confessed having aided in starting fires, and several of them are now under arrest.

Intoxicated Robert Darwell got on the platform of a train near Terre Haute, Ind., and would not heed the brakeman's warning to go inside. Ten minutes later he was scattered over a half mile of track.

Private information from Covington, Ky., enabled policy-playing Evansville, Ind., citizens to win \$8,500. Shops refused to pay up the winnings as they smelled something which savored of sinful dishonesty in the air.

Near Curtis, in Lincoln county, Nebraska, Mrs. Anna Bryant was shot and killed by her father, Mr. Greenwood, just after she had given birth to a child. whose father refused to live with her. Greenwood was jailed and may be lynched.

THE BERLINERS PLEASED

AT THE EMPEROR'S CONDITION AND HIS SON'S MARRIAGE.

Prominent Europeans Predict No War During the Present Year—A Harvest for the Manufacturers of War Materials. Germans in Corea—Foreign News Notes.

BERLIN, May 25.—The emperor's convalescence and the marriage of the emperor's second son, Henry, to the Princess Irene of Hesse, has put the Berliners into the best of humors. They swarmed all day long Wednesday under den Linden, and about the embassies, on the outlook for foreign greatness which had come to attend the wedding. This included the Prince of Wales, Prince Albrecht of Prussia, the Grand Duke and Grand Duchess Sergius, of Russia, and the Crown Prince of Greece.

The people rushed to the steps of the carriage of the Prince of Wales, saluting him with noisy demonstrations, which he acknowledged in a very democratic, off-hand manner. Wednesday evening on the arrival of the special train which had been sent to the frontier to meet Irene, after the customary greetings and introductions of suites to Irene, the crown prince conducted his future

PRINCESS IRENE. PRINCE HENRY.
sister-in-law to a carriage drawn by four black horses, with outriders and postillions. She is a handsome girl, and of course showed to advantage in white silks and pearls. She was welcomed by an enthusiasm that touched her young heart, and her tears as well as smiles responded to the cries of "Hoch," "Wilkommen!"

The cavalcade in the neighborhood of the palace when the electric light reflected from the cuirasses and helmets of the guards du corps and upon the varied costumes of officials and people made a grand picture. And the park in front of the palace was very like a fairy land, where among the foliage aerial forams were hovering over the bride and her cousins. In the blue room distinguished guests awaited the arrival of the royal party, which entered the court yard between lines of foot guards. The crown prince will preside at the wedding banquet.

No War This Year.

LONDON, May 25.—Nearly every person of prominence in this country and on the continent proclaims the impossibility of war in Europe for a year at least. Prince Bismarck does not desire war for the present, Russia cannot fully prepare herself in less than eighteen months, and France would not dare to precipitate a conflict unaided. These and other cogent reasons are glibly given and there is an uneasiness in the manner of every speaker which indicates that he would gladly be assured of the truth of his utterances. The opinions of stay-at-home statesmen are sometimes of less value than those of persons much below them in station, men of acute perception although of inferior attainments.

From information derived from commercial men whose business keeps them on the wing, the common people throughout the continent are fearful that war is near at hand. The vapors and predictions of minor military officers might be passed by in silence, but there is a hesitation to enter into commercial engagements which bespeaks a lack of confidence among men of moderate capital.

Manufacturers of arms and war material, however, are reaping a harvest from the hesitation. In Germany and France government and private works are running night and day and the utmost caution is taken to exclude strangers from their vicinity. In Belgium, the armories of siege are overwhelmed with orders and small contracts are sublet to gunmakers in the surrounding towns.

The immense number of cartridges recently dispatched to Bulgaria, does not indicate that Prince Ferdinand has an abiding faith in the permanence of peace. The ridicule with which his accession to power was greeted, has somewhat given away to admiration for his good fortune in remaining so long, and hope or fear, according to political leanings, that he has come to stay.

One source of uneasiness to Russia is as to who pays for the preparation for defence in the provinces that lie between her and Constantinople. The arms and war material lately acquired by Bulgaria cost an immense amount of money—a sum far beyond the ability of that country to furnish—and inquiry has proved that cash was paid for a portion of them and satisfactory security given to the Belgian manufacturers for the remainder before delivery.

The fortifications being constructed in Roumania, especially the cordon of works around Bucharest, will not have their superiors in Europe. Russia is furious at seeing these unexpected barriers to her advance into the Balkan peninsula, and rightly or wrongly, imagines that they are due to the material assistance of England acting through Germany, and it is a significant fact that all the appointments recently made by the czar have been from the war party, men well known as Anglo-Phobists and haters of Germany, and asserters of Russia's claim to the Turkish capital.

French Republicans.

PARIS, May 25.—The Republican meeting called by M. Clemenceau, Joffrin and Ranc, Wednesday night, was attended by 800 senators, deputies, journalists and members of the Paris municipality. A great deal of enthusiasm prevailed and resolutions were unanimously passed pledging the meeting to

combat Boulangerism, and to employ every possible means to prevent a Caesarian reaction. The resolutions further affirmed that a Republican, not a Bonapartist, revision of the constitution was needed, and such revision should be followed by a progressive realization of constitutional, political and social reforms.

Germany Will Capture Corea.

SAN FRANCISCO, May 25.—From advices received here by the steamer City of Peking, it is learned that representatives of a German syndicate have received a concession from the Korean government to work the gold mine in Feng Yang, and will loan the government \$8,000,000 if necessary.

Three United States officers are on their way to Corea to organize a modern army there. This is a rich peninsula, and its people have with difficulty maintained their independence against not only Chinese and Japanese on either side of them, but against European nations, which have long sighed for its mineral treasures, and made frequent incursions with a view to secure control of Corea.

Within the last five years, the Liberals of Corea, favoring intimate relations with outside nations, have become dominant, and now Germany is the first to get a financial lever upon her. Acquisition of territory has become the mania of all the European powers, and they are rapidly obtaining control of all African and Oriental territories not able to withstand them.

England Will Be Forced to Fight.

LONDON, May 25.—It is stated upon excellent authority that the moment the military and naval credit of £3,500,000 now demanded by the government is granted, an appropriation of several millions more will be asked for. The hope that England will be able to exclude herself from the impending European war is becoming fainter every day. The preparations of Russia and Austria continue, and Turkey, as well as the Balkan states, are preparing for the great struggle.

A Gift to Chicago.

BRUSSELS, May 25.—A full sized plaster model of the bronze statue of the Explorer de La Salle, presented to the city of Chicago by Mr. Tree, is on exhibition here and attracts much attention.

Foreign Notes.

The emperor of Brazil is slightly better. The followers of the Mahdi threaten an attack upon Massowah.

Gladstonians are jubilant over the election of Mr. Evans, Liberal, in Southampton, a Conservative stronghold.

During the performance of a French opera in the theater at Turin, a serious anti-French demonstration took place. The police were compelled to clear the building.

The British government is informed that the town of Grating, Thibet, defended by a small force of British soldiers, was recently besieged for several hours by an army of 3,000 Thibetans. The besieging force was finally compelled to retire, leaving one hundred of their number dead, while the British casualties were three killed and seven wounded.

FRIDAY EVEN'G, MAY 25, 1888.

Kelley and Kentucky.

During the tariff discussion in Congress the past month or so, "Pig Iron" Kelley, (Republican), of Pennsylvania, made a speech during which he referred at some length to Kentucky. His remarks were such gross misrepresentations of facts concerning our State that a number of our Congressmen took advantage of the first opportunity to refute them.

Hon. James B. McCreary was the first to call Mr. Kelley to an account for his attack upon Kentucky, and the gentleman from Pennsylvania was forced to retract his statements, acknowledging on the floor of the House that he had been mistaken in some of his figures.

When Hon. W. C. P. Breckinridge was making his noted tariff speech last week he devoted a few minutes of his time to Mr. Kelley's charges. We quote from Mr. Breckinridge's remarks:

"It is not, however, true in the sense in which the gentleman asks it, that Kentucky has been laggard. Under the apportionment in 1870 she obtained one additional Representative on this floor, and again, under the apportionment of 1880, she obtained another. From 1870 to 1880, Kentucky increased in population nearly 24 per cent.; Pennsylvania nearly 22 per cent., and New England a little over 15 per cent., so that in spite of unequal laws her growth has been steady, homogeneous and prosperous, without jealousy of any sister State, with kindly regard for all sections.

"It is true we have not imported contract labor from Hungary to mine our coal at a price so small that the duty upon it will pay much more than the cost of the mining, and thereby driven the native population from their homes. It is true that we have not used the laws of the land to induce foreigners to settle among us under such contracts as to force the native laborer to work at starvation prices and thereby give to gentlemen in Kentucky the means to found great libraries, or even write valuable books showing the exploits of that 'triumphant democracy' through whose delusions such accumulations become possible.

"For the convenience of her citizens Kentucky has divided her territory into numerous counties, and the revenue paid by the citizens of some of these counties do not equal the expenditures needed to be disbursed within those counties, and such counties are called 'pauper counties,' being, however, not a term of reproach nor of poverty. But I feel a pang of pain when the venerable gentleman from Pennsylvania, in his blind attack upon Kentucky, spoke of these 'pauper' counties, not on my own account, but for my friends, my Republican colleagues from Kentucky (Messrs. Thomas, Hunter and Finley), each of whom lives in one of these 'pauper' counties, and in these counties resides the Republican strength of Kentucky. When that speech is read by the citizens of those counties, who have held in affectionate remembrance the name of my venerable friend, they will think, if they do not say, 'Et tu, Brute,' and I fear that they will not remember that the last word is in Latin and it is a word of two syllables.

"The venerable gentleman permits himself to say:

"In the midst of almost unparalleled wealth and general physical advantages, the mass of her people are steeped in poverty and illiteracy, and are strangers not only to the comforts of humble life, but to the commonest and most absolute daily necessities of Northern laborers. In 1880, the number of her people above ten years of age, who were reported by the census as unable to read or write, were more than one-half of the total population, which of course included those under ten years of age, numbered 1,163,438."

"The venerable gentleman, after the speech of my colleague, Governor McCreary, corrected the figures, but did not retract the charges founded upon them; statements far more inaccurate than were the figures; a description so grotesque and exaggerated as to excite pity for him who could deliberately write and utter it. It is a fair specimen of the accuracy and fairness of one of the latest defenders of the present system, and of the temper, animus, and taste of the leader of the Republican House. It harms not the State of whom it is recklessly said."

Free Turnpikes.

Maysville is wrestling with the free turnpike question. It is a matter of great importance to the people of Mason, and it they can solve the problem others will be glad to follow. —Carlsruhe Mercury.

The Maysville merchants who have taken hold of the question are determined citizens, and they are going to have free turnpikes or low tolls. If the big turnpike corporations will "read the signs of the times" correctly they will lower their present rates to something reasonable. They would learn that low tolls would increase the travel, and there would be no falling off in their receipts.

The Court of Claims of Fayette County appropriated \$500 to increase the salary of Commonwealth's Attorney C. J. Bronston.

The action of the Court of Claims in increasing the salary of the Superintendent of Public Schools to \$700 a year will meet with approval on every hand. Mr. Galbraith is doing excellent work for the cause of education in our county, and interest in common schools is growing every year.

The last Ohio Legislature passed a law which says "that whoever sells, gives, or furnishes to any minor under fifteen years of age, any cigarette, cigar, or tobacco, shall be fined not less than five dollars nor more than twenty-five dollars, or imprisoned not more than thirty days, or both."

The Aberdeen "kids" will now have to come over to Maysville for their cigars and cigarettes.

THE COUNTY RECORDS.

Mr. Ball Withdraws His Proposition to Make New Indexes.

Doings of the Court of Claims—Appropriation Made to Place the Hill City Pike in Repair.

All the Justices were present at yesterday's session of the court of claims. Judge Coons presiding.

The following turnpike companies made applications for subscriptions of stock by the county:

Absolom Creek turnpike, two and three-fifths miles.

Mill Creek and Choctaw turnpike, two and three-eighths miles.

Shannon and Lowell turnpike, about three miles.

These applications were read and ordered filed.

The application of H. C. Barkley, Geo. T. Wood, John Wheeler, Jas. F. Robinson, Collins & Rudy Lumber Co., F. H. Traxel, J. H. Pecor, M. C. Russell, J. T. Kackley and James & Wells for an appropriation of \$2,500 to aid in placing the Middle Trace Turnpike (Northern Division)—known as the Hill City pike—in repair, to be then operated as a free road, was read, received and filed.

J. James Wood, and J. and J. F. Barbour filed application for an appropriation of \$400 to construct a piece of turnpike on the dirt road in Chester. Granted.

The Sheriff reported that the Maysville & Lexington Railroad Company (Kentucky Central) had paid the back taxes under the compromise previously agreed on, and same was noted of record.

The full subscription of the county to the Mill Creek and Choctaw pike—three-fifths of the cost—was ordered to be paid when one mile and 1,440 yards thereof shall have been completed. The subscription was then made.

The sum of \$1,500 per mile for three miles and 197 rods was subscribed to the Shannon and Lowell Turnpike Company—the pike to be constructed in accord, and with the order of the court made in May, 1881.

The sum of \$300 was subscribed as stock in the Minerva & Beasley Creek pike, to pay a debt contracted for a bridge built a few years ago.

J. M. Alexander and I. L. McIlvaine filed a report of the expenditure of \$1,500 allowed at last term to build the Mill Creek turnpike bridge.

The usual subscription—three-fifths of the cost—was made to the Absolom Creek Turnpike Company.

The question of making new indexes—direct and cross—of the records in the County Clerk's office was discussed at length yesterday afternoon. It was brought up again this morning, when Mr. Byar moved that the indexing be made from the present time. Mr. Ball thereupon withdrew his proposition, made some days ago.

The application of Messrs. H. C. Barkley, Geo. T. Wood and others mentioned above for \$2,500 to aid in placing the Hill City pike in repair was granted this morning. Only three votes were cast against the application.

Stock, Field and Farm.
A farmer near Lexington lost ten acres of beans by the frost last week.

Nearly five thousand head of stock were delivered at Covington Sunday, over the Kentucky Central.

The Cane Ridge correspondent of the Bourbon News says: "Many farmers here are planting their corn over, owing to the ravages of the cut worms. One farmer set a bucket down in the field one day last week for a couple of hours, and when he raised it up he counted seventy-five worms which had crept under it."

OUR NEIGHBORS.

MINERVA.

The women are busy house-cleaning. Every dude in town was out Sunday. Base ball playing is very common on the streets now.

Dr. J. A. Reed, of Covington, was here Monday and Tuesday.

W. B. Cushman and wife, of Dover, were visiting in town Sunday.

Miss Currie Pollitt, of Toltlesboro, is visiting Miss Sue Winter this week.

Miss Ella Reynolds has been here this week, decorating her father's grave.

Many of our farmers took advantage of the good tobacco season and set out part of their crop.

Rev. J. D. Redd, of Dover, and Rev. J. H. Herron, of Augusta, spent Wednesday in town.

Don't forget that Misses Fannie Grigson and Lucy Proctor are selling ice cream every Saturday night.

Miss Mollie K. Boyd has been visiting her sister, Mrs. J. C. Pickrel, of East Union, for several weeks.

An election will be held here Saturday, June 2, 1888, for the purpose of electing colored school trustees.

J. B. Hawes is the leading grocer in our town, and will sell you groceries cheaper than at any other store here.

Judge North says he has learned by close observation that when there is a large locust blossom there is a very large crop of corn.

Dr. F. S. Thompson is fast gaining a reputation here. Last week he removed a tumor from the throat of George Beckley, a colored boy, as large as a goose egg, and the patient is now fast recovering.

The singing school at the Christian Church, conducted by J. N. Boyd, of Dover, is progressing rapidly, and Minerva realizes that Mr. Boyd is the very man she has been wanting. We feel that this singing school is very liberal in a social way, and we hope it will increase in numbers and meet with success.

HELENA.

Old Helena is on a boom this week.

Wm. Lintrell is confined to his room again.

Robert Wood, who has been confined to his home, is improving slowly.

For the benefit of some of our boys.—A still tongue makes a wise man.

John White, the champion fighter, talks of going West soon.

Our town has one gun smith, one blacksmith, one wagon maker, five carpenters, two millinery stores, one grocery store, one dry goods store and grocery, one livery stable, one machine agent, two paper agents and one mill.

Democracy's Unbroken Front.

[New York Telegram.]

The Democratic situation up to this date is as follows:

FOR GROVER CLEVELAND:

Vermont, New Hampshire, Connecticut, Massachusetts, New Jersey, Indiana, Wisconsin, Michigan, Iowa, Minnesota, Maryland, Delaware, Alabama, Tennessee, West Virginia, Georgia.

FOR EVERYBODY ELSE:

All these states send rock-ribbed delegations to St. Louis for Cleveland and Tariff Reform.

As a mere matter of formality the remaining States will sound the same slogan within the next ten days and the renomination of Cleveland on June 5th by the clarion voice of Democracy's boisterous battalions will be one of the greatest spectacles in political history.

THE CITY LEVY.

Council Lowers the Rate of Taxation—Railroad Debt Ordered Funded.

Complaints Heard Against the Assessment—Other Business Transacted.

The adjourned meeting of the City Council last evening to make the levy for this year and hear grievances against the present assessment was attended by all members except Mr. Robinson. President Poyntz was in the chair.

William Wormald thought the assessment of his vacant lot in rear of Mrs. Samuel Pearce's residence on Wall street at \$600 was too high. On motion it was reduced to \$500. Last year it was assessed at \$400. Mr. Wormald also thought the coal elevator property should be assessed to the Citizens' Committee, but no action was taken, as the members considered that a matter between himself and the committee.

Jacob Joergler complained against the assessment of his business houses on the southeast corner of Second and Market streets. The assessment last year was \$12,000. The Assessor had increased this to \$14,000. No motion to reduce was made, and the assessment was allowed to stand.

M. B. McKrell thought the assessment of his business house and stock of goods was too high. The increase by the Board of Equalization was \$1,500—\$500 on building and \$1,000 on goods. He finally agreed that the goods were not too high, but wanted the \$500 taken off the house. The council declined to take any action.

Mr. Shaeffer appeared for the Maysville Water Company. He read a letter from the President of the company stating that extensive improvements were contemplated. Among other changes new and improved boilers and pumping machinery were to be put in, and new reservoirs constructed, on Watkins' Hill, the boilers to be put in this year, the reservoirs at some time farther in the future. The contemplated change in the reservoirs will cost \$35,000 to \$50,000. Mr. Shaeffer stated the income from water rents amounted to from \$12,000 to \$13,000 a year, but the company had never been able to declare a dividend, and asked that the property be exempted this year. On motion the assessment was reduced from \$50,000 to \$25,000.

W. J. Hickey appeared and asked that the property on the southeast corner of Third and Limestone streets owned by St. Patrick's Church be exempted, but council declined to take any action, and it was allowed to stand, as assessed, at \$5,000.

Charles Zweigart's vacant lot on northeast corner of Second and Short streets was assessed at \$500 and the Board had raised it to \$1,000. Mr. Zweigart wanted it reduced to \$600, saying it was too high when compared with the neighboring property. The council didn't think that way, and it was allowed to stand, as was also the assessment of his house on Short street, which had been raised \$150. Mr. Zweigart said the firm of Zweigart Bros. had given the merchandise at their meat store in at \$50 but the Assessor had put it down at \$100. He wanted it reduced to \$50, but council declined to grant his request.

Abner Bowling complained about the assessment of a piece of property on Second street, Fifth ward. He was "willing to pay his share of the taxes," but he thought the property referred to was too high, compared with some of his neighbors. The assessment was not reduced.

A complaint was read from Mr. George T. Wood about the assessment of his home property, but no reduction was made. One member thought the assessment ought to be raised.

On motion the Assessor's books, with the changes made, were then received and made the assessment for the present year. The rules were suspended and the ordinance fixing the city levy was read and adopted. The levy is as follows:

Revenue and general expenses.....	90c. on \$100
School purposes.....	10c. on \$100
Total.....	100c. on \$100
Poll tax.....	\$1.50
Tax on each dog.....	1.00
Tax on each bitch.....	2.50

The levy last year was \$1.25 on the \$100.

The matter of improving and repairing the Second street bridge over Limestone Creek was referred to the Committee on Internal Improvement with power to act. The committee has a proposition from a Mr. Huddleston to make the bridge safe for travel for four years for \$250 or \$300.

The amendment to the charter providing for the funding of the \$60,000 subscription to the Maysville and Big Sandy Railroad Company was read and approved. The council then authorized the Ways and Means Committee to fund said debt by issuing ten-twenty bonds of the value of \$500 each, bearing interest at the rate of 5 per cent. It was further ordered that said bonds be exempt from city taxation. The bonds are to be redeemed at

the rate of \$6,000 a year, beginning in 1893.

Joseph H. Dodson was granted permission to erect a frame addition to his residence on Fourth street.

A complaint from the citizens living in the neighborhood of Second and Wall streets about the nuisance caused by running hot water from the ice factory into a sewer near by was read and referred to the Committee on Public Health. It was claimed the poisonous gasses from the sewer was causing a great deal of sickness. Complaints about nuisances on west side of Wall, between Second and Third, and on Fourth near the bottling factory and elsewhere were referred to same committee.

Mr. Ficklin introduced and read an ordinance to prevent loafing about railroad depots and yards, and also to prevent tampering with the rolling stock of railroads. The ordinance went over till next meeting. Mr. Wood gave notice that he would amend to prevent persons from walking over the trestle across the creek bottom.

EXPERTS have pronounced the natural gas at Langrange o. k. and the company has contracted to sink a number of wells in that section, having a lease on 50,000 acres of land. Oil gas was found at a depth of 550 feet.

THE agents of the Standard Library Company who are canvassing our city in the interest of a circulating library to be left with Mr. Harry C. McDougle report generous treatment from citizens and say they are assured of success. They carry a catalogue of choice books from which applicants for membership can select. These agents come well recommended by good men.

OWENS & BARKLEY have just received several sizes of lawn mowers. Will be sold at lower prices than ever before. Also large lot of fishing reels, rods, lines, hooks, minnow seines, seines from twelve to seventy-five feet long, at wholesale and retail. Stock of barbed and annealed fence wire and fence staples. All will be sold at the lowest prices. Corn planters—"Eagle," "Buckeye" and "Victor."

THE Maysville Fair will be held August 22-23th, and by the advance advertisements of its purses and premiums, we are led to believe that the coming meeting will be a great one. For fun and a general good time Maysville is the place, and her fair time is about the best season to go after it.—Carlisle Mercury.

Thanks. Be on hand in August, brother Mercury, and our new fair company will see that you are not disappointed. Bigger crowd than ever before, and lots of fun. Don't miss it.

IN the Circuit Court at Flemingsburg, Henry Payne was tried for forging county orders. The defense was technical, and he was discharged on peremptory instructions from the bench. He has been lying in jail six months waiting for trial, and made no denial of the crime.

JAMES Brown, colored, for grand larceny, was discharged because of a flaw in the indictment. He picked up on a highway a purse belonging to Fred Hartman, of Reading, Ohio, containing \$15, and spent it.

Against Mr. Otto.

The trial of the case of the Jung Brewing Company against Frederick Otto, of this city, was concluded yesterday in the United States Court at Covington. The jury rendered a verdict against Mr. Otto for the full amount asked—\$8,591.82. The jury was out about ten minutes. The suit was for beer furnished, and the defense set up a plea that the contract for the beer was made with a son of the defendant.

Ten Big Shows.

John Robinson is coming with ten big shows. He has the latest and best trained circus troupes in the world. The Orondo family can not be excelled in their various acts under the canvases, while in the menagerie will be found all the wild animals, and every freak of nature is represented. Yet you get all this for the same money you pay for a common circus. Don't forget the date, Monday, May 28.

A BATTLE WITH PIRATES.

CHINESE COOLIES ATTEMPT TO BOARD A SINKING VESSEL.

After a bloody fight they are driven off and the passengers and crew escape. The Pirates Then Burn the Vessel to the Water's Edge—Loss \$500,000; Insured.

SAN FRANCISCO, May 25.—The China steamer Wednesday brought news of the extraordinary wreck of the costly steamer, San Pablo, which occurred April 24 on a reef off Turnabout Island, in the Formosa strait off the China coast.

Only brief cable reports have been received of the disaster. The vessel struck a sunken rock in a thick fog early in the morning. Everyone was aroused, and the captain soon saw that the vessel must be abandoned, as she was filling fast and showed a tendency to capsize.

Just before the lifeboats were ready to be lowered a swarm of Chinese piratical junks came from the neighboring mainlands. They came in such overwhelming numbers that before any demonstration could be made on board the sinking vessel the pirates were climbing up the ship's side heavily armed.

Capt. Reed passed revolvers and guns among the passengers and crew and after a furious fusillade the pirates were beaten off. They made a second and more desperate attempt to board the San Pablo, when Capt. Reed brought the ship's hose pipes into requisition and instantly the pirates were again put to flight. The coolies then beat a retreat and, drawing their vessels up in line, cruised half a mile off the sinking vessel with the evident intention of awaiting the abandonment of the vessel.

As soon as possible the passengers, mails, and specie were put into the San Pablo's small boats, and then all bore away for the mainland. The pirates at once rushed upon the San Pablo and set fire to her.

The passengers were taken to Hong Kong and tugs were sent to the relief of the San Pablo, but they found only the hulk, burned to the water's edge, and stripped of everything valuable. It is estimated that at least a score of pirates lost their lives in their fight with Capt. Reed and his men.

Those on board the San Pablo sought the state rooms, where they were in constant fear, not only of falling into the hands of the pirates, but of being drowned. The San Pablo was valued at \$500,000. She was insured.

ANOTHER WHITE CAP RAID.

Two Men Whipped Unmercifully—Citizens Organizing for Protection.

LEAVENWORTH, Ind., May 25.—The quietude of our county was overthrown by a fresh White Cap raid Tuesday night. Two of the leading citizens of Bogard's Fork, this county, were taken out and whipped. The marauders, on horseback, clothed with the usual regalia, proceeded to the house of Jacob Strice and dragged him from his bed and led him to a tree, and proceeded to beat him unmercifully, he being surrounded by his pleading wife and terror-stricken children. They charged him with being too intimate with a neighbor's wife.

They then went to the house of Salem McKain and broke down his door. They gave him 150 lashes with hickory switches. His offense was not providing for his family. After calling on a number of citizens and ordering them to circulate the news of their outrages they mysteriously disappeared.

Both men are in a critical condition. Great excitement prevails throughout the county over these repeated outrages, and a reign of terror prevails. Good citizens are contemplating organizing into a band for their protection. A petition will be made to the governor for protection to the law-abiding citizens. Women and children are terror-stricken. The situation in our county rivals the Bald Knob excitement of Missouri.

Desperate Jail Breakers.

CAIRO, Ill., May 25.—Five prisoners escaped from the Ballard county jail, at Wickliffe, Ky., Tuesday evening. They knocked the jailer senseless with clubs, while he was serving supper, and after a fight with the jailer's son, during which one of the prisoners was knocked down and recaptured; the other four got away. Mounted men started in pursuit, and succeeded in capturing two of the runaways after a desperate struggle, in which one of the prisoners was badly wounded by a shot, and the other was beaten to insensibility. The other two succeeded in making their escape.

Kansas Town Destroyed By a Cyclone. WICHITA, Kan., May 25.—Information was received in this city Wednesday night that the town of Argonia, southwest of here, was entirely destroyed by a cyclone Wednesday evening. The details of the storm are meagre, but it is known that of twenty stores in the place only two were left, and many residences were demolished. The storm came up from the southwest, in the regular funnel shape, and fairly swept everything from its path. Reports so far give no account of anyone being killed, although it is thought here that many have perished.

A Carpenter's Frightful Fall.

WELLSVILLE, O., May 25.—John Shully, a carpenter at work on a three story house at Columbiana, fell from the roof to the ground Wednesday morning, a distance of fifty feet, and was frightfully crushed. Every bone in the man's body seems shattered, and although not instantly killed, he will die.

Struck His Neighbor With a Spade. BOWLING GREEN, O., May 25.—William Opperman, of near Tontogany, is in jail here as the result of a line fence and ditch quarrel with his neighbor, Alfred Megginson. Opperman struck Megginson over the head with a spade, inflicting a serious wound. The charge against him is assault with intent to kill.

Patterson Again Rescued.

LOUISVILLE, Ky., May 25.—William Patterson, who was to be hanged May 25, under expiration of the governor's ninety day respite, has received a second respite until June 22.

Ohio Grand Lodge K. of P.

ZANESVILLE, O., May 25.—The Grand Lodge Ohio Knights of Pythias voted to meet next year on the fourth Tuesday of May at Toledo.

The Dias De Barr's Trial Postponed. NEW YORK, May 25.—The trial of Mrs. and Gen. Dias De Barr for conspiracy has been postponed until June 4.

THE FOURTH AND FIFTH BISHOPS.

Dr. Newman and Dr. Goodsell Chosen to the High Positions. New York, May 25.—When Bishop Foster called the general Methodist conference to order, all the delegates were in their places for about the first time since the opening

REV. JOHN P. NEWMAN.

day, and when Dennis Osborne, of India, announced the opening hymn the galleries and boxes were well filled. Dr. Newman was in his customary seat when the result of the tenth ballot was made known. The ballot resulted in no election. There were 435 votes cast and 230 necessary for a choice. Dr. Newman received 274; Dr. Goodsell, 267, and Dr. Cranston, 218.

The result had hardly been announced when Dr. Baylies jumped up and offered a resolution in the interests of a fair count. He suggested that when a conference was called the delegates should rise and pass their votes to the teller, who should then declare the number of votes cast, of which an accurate tally should be kept. The conference would not hear of such a thing. They were all honest men and did not feel inclined to submit to any such indignity.

The eleventh, twelfth and thirteenth ballots resulted in no election.

On the fourteenth ballot Newman was elected. Dr. D. A. Goodsell was elected the fifth bishop.

Received With Enthusiasm.

WASHINGTON, May 25.—The announcement that Dr. Newman had been elected a bishop by the Methodist conference in New York, was received with much enthusiasm by his friends at the capital. In honor of the election, Professor Widdows, this afternoon, rang the "Bishop's Bell" on the Metropolitan church chiming.

The North American Turnerbund.

CHICAGO, May 25.—The convention of the North American Turnerbund closed Wednesday afternoon. It was expected there would be a lively discussion of the liquor question but nothing of the kind occurred, the session being principally taken up with routine business. Turner Noddehorst desired the statement to be made public that the turners of the country did not in any sense approve of the principles of Anarchy, with which the name of the association of late had unfortunately been connected.

Great Meeting of Friends.

GLENS FALLS, N. Y., May 25.—The annual meeting of the religious sect known as "Friends" in session here, Thursday, will be memorable in the annals of the Quakers as the largest convention yet held by that sect in the United States. Delegates are present from all parts of the country, Philadelphia sending the largest number of delegates. The Quakers are not a proselytizing community and they made but very little ostentatious display of their work and progress.

The Weather.

WASHINGTON, May 25.—Indications—Nearly stationary temperature; fair weather, followed by local rains; fresh to brisk southeasterly winds.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce and Cattle Market for May 24.

New York.—Money 1 1/4 per cent. Exchange steady. Governments steady.

Currency sixes, 121 bid; four coupons, 127 1/2 bid; four-and-a-half, 105 1/4 bid.

The stock market opened feverish, and an attempt was made to force a decline in St. Paul, but this was met by a stubborn resistance. All stock offering was speedily bought up, and instead of declining the stock advanced. At 11 o'clock prices were up 3/4 of 1 per cent, but by 1 o'clock the improvement was lost on hammering by Reading and St. Paul. The market at 1:30 is dull and weak.
